PROFILE

I am a full stack web developer specialising in Ruby on Rails and JavaScript. Always interested in computers and programming as a medium that creates visual and virtual contents out of mere strings of characters, I trained myself through the course at LeWagon and my personal projects; The more I study each framework, the more I am made aware of their capabilities to improve situations that is tightly connected to our everyday lives. For these reasons, I am now looking for a company willing to offer me a placement among their developers, as one member of a team keen to further enhance the experience of its users.

PROJECTS

EAGLE HOUSE CONSTRUCTION www.eaglehouseconstruction.co.uk

- Website built for a local construction company
